

## Parasite Genus by Host

(Note these are the host parasite relationships that you need to know for the exam. Some parasite genera occur in hosts not listed that you will not be held responsible. [Mainly because we do not have specimens for those species.] For example, there are *Capillaria* species that are found in cats & ruminants.)

### LARGE ANIMAL

#### Ruminant, Swine, Horse

*Eimeria*  
*Strongyle*  
*Strongyloides* (ova)

#### Ruminant, Swine

*Trichuris*

#### Ruminant only

*Nematodirus*  
*Moniezia*  
*Fasciola*

#### Swine Only

*Cystoisospora*  
*Ascaris*

#### Equine Only

*Parascaris*  
*Oxyuris*  
*Anoplocephala*

### SMALL ANIMAL

#### Dog & Cat

*Cystoisospora*  
*Hookworm*  
*Toxocara*  
*Paragonimus*  
*Taenia* (ova & proglottid)  
*Dipylidium* (ova & proglottid)  
*Spirometra*

#### Dog only

*Trichuris*  
*Eucolus* or *Capillaria*  
*Strongyloides* (larva)

#### Cat Only

*Aelurostrongylus* (larva)
